

### **Gemstones**

This eye shadow quartet has four of YB's best selling shades.

**Cashmere:** The perfect shade to create the "smoldering eye effect". Use it on the upper eyelid and blend it right up to the crease. Cashmere is also great as eyeliner when wet.

**Alabaster:** Use this shade under the brow bone to the crease to soften the edge of the darker color such as Cashmere or Irish moss, to create "the smoldering eye". Irish

**Moss:** Great shade to fill in the brow color or as a crease color. Wide-set eyes - place Irish moss in the inner crease from the nose to the outside of the eye; closer set eyes - place the shadow in the outer corner of the eye only. Blend this shade with Golden Beryl, included in this quad.

**Golden Beryl:** Great color for blending or even highlighting the inner corner of the eyes. Perfect as an eye lid color.

### **Timeless**

Youngblood combined two best selling shades, Coco and Haze and two new shades, Doe and Desert.

**Haze:** The perfect eyeliner dry or wet. For more definition use for the crease of the eye.

**Coco:** Use it for a softer and more natural crease color or for an all over lid color.

**Desert:** Perfect for blending, beautiful shade to "pop" a "Blue Eye" by using it all over the lid. For a special occasion, use wet with an eyeliner brush and place it in the outer edge of the tear duct.

**Doe:** Perfect highlighter for any skin tone. Use it under the brow bone or on the lower lid.

### **Orient Express**

Runaway to the Orient with this gorgeous new Fall Eyeshadow Quad. Offers colors in Golds and Greens.

**Jade:** For a more dramatic effect, use as an all-over lid color, or for a more subtle look, simply apply to crease only.

**Green Tea:** This soft and subtle green can be blended with the Jade to create a layering effect or use alone along the crease.

**Tea Biscuit:** For a glowing and natural look, apply to lid. Or simply use as a highlighter for the brow bone.

**Rice Paper:** This pearly highlighter is perfect for any skin tone and is the perfect complement to any of your other Youngblood Pressed Mineral Eyeshadow shades.

### **Eternity**

This eye shadow collection has four brand new shades perfect for any eye color and skin tone. Whether you want a "Natural Everyday Look" or a more "Dramatic Evening Look", this will be your favorite.

**Quartz:** Perfect shade for blending and highlighting.

**Silken:** Also a highlighter and a blending shade. Try this shade in the tear duct of the eye to brighten the eye and minimize dark circles.

**Spice:** Great lid color to open up the eye.

**Mink:** Great to outline the eye, try it wet for a more dramatic look. Perfect in the crease of the eye.

### **Cabana**

Looking for an escape, try our trendy Cabana Quad with its beautiful, beachy colors.

**Sand Dollar:** Perfect for a highlighter. Use it under the brow bone or on the lower lid.

**Aqua Mist:** Can be used as an all-over lid color or just to fill in crease.

**Driftwood:** Blends beautifully with the Gold Coast (also in this Quad) to create that "smoky and smoldering" look.

**Gold Coast:** Great for blending and even highlighting—either the brow bone or the inner corner of the eyes.

### **Shanghai Nights**

Dance the night away with Shanghai Nights in Beige, Brown and Soft Pink.

**Shitake:** This dark brown shade will create the ideal Fall look when blended with the Beige-Ing (also in this Quad). Can also be used as an eyeliner when applied with the Eye/Lip brush.

**Beige-Ing:** Use as an all-over lid color from crease to brow bone or blend with the Shitake or even the Cherry Blossom to create a warmer Fall look.

**Cherry Blossom:** This soft pink will brighten any skin tone with just a hint of shimmer. Use alone or blend with your favorite color!

**Bamboo:** To make your eyes "pop" use this shade as a highlighter either under the brow bone or on the inner corner of the eyes.
