

# APPLICATION TIPS:

Youngblood Mineral Eyeshadows are versatile and can be mixed and matched to achieve anything from a soft, natural look to a bold, vibrant eye.

**To enhance** overall performance of YB Eyeshadows, prep eye area with YB Ultimate Concealer utilizing YB Eye/Lip Brush.

**Eyes can be lined** with any of the deeper shades, especially Raven, our matte black shade! Wetting the YB Eye-Lip brush will help define the line and deepen the color.

**To fill and define eyebrows:** use Coco for brown or auburn eyebrows, Haze for dark eyebrows and Irish Moss for blond or ash eyebrows.

**\*To intensify** eyeshadow colors, apply wet.

**Create a "creamy" Eyeshadow!** Blend together a small amount of YB Ultimate Concealer in Fair or Medium with a YB Eyeshadow of your choice and smooth on with a brush or finger tips. Hint: jewel tones like Golden Beryl, Fire Opal and Heather Smoke look especially vibrant for night!
