

APPLICATION TIPS:

Youngblood Crushed Mineral Blushes are extremely versatile - ideal for contouring and giving that natural hint of color for the cheeks. You can even use YB Blushes as an eye shadow or lip tint.

To contour cheeks, jaw line, nose or brow: choose a darker blush, such as Adobe, and apply with the YB Contour Blush Brush, feather and blend, then choose a lighter color such as Dusty Pink or Plumberry and apply to the apple of your cheek with the YB Super Powder Brush. Use a swirling motion on the apple area, softly blend the blush downward. Final touch – dust overall with YB Rice Setting Powder for a softest of looks.

To highlight or brighten the eye area: use Tulip, Dusty Pink or Coral Reef. Apply with YB Eye Shadow Brush wet or dry.

Mix or blend blushes, such as Plumberry, into your favorite gloss or lip balm.
