

APPLICATION TIPS:

The Mineral Foundation is very pure and quite concentrated, so a little goes a long way! Make sure that skin is dry to the touch before application. Moisturizer must be completely penetrated before use!

- For maximum coverage, apply with a sponge.
- For light coverage, apply with a powder brush.
- The powders can be mixed with your favorite light moisturizer to create a creamy liquid foundation.
- Use darker shades for beautiful natural bronzer! Simply dust on face, neck or shoulders with large fluffy powder brush.
