

APPLICATION TIPS:

YB Lip Shines can be used alone, layered over Youngblood Lipsticks or Lip Liners to create an endless array of new looks.

Natural Look: Using the YB Travel Lip Brush apply the lip shine to the entire lip area. All shades are slightly pigmented so they are natural looking and beautiful alone!

Classic Look: Line your lips with your favorite natural shade of lip liner such as Malt. Use small strokes from the outer corner of your mouth, avoiding a hard line. Blend and fill in your lips completely, finish your look with a small amount of lip shine.

Evening Look: Line your lips using the same technique as above, but blend and fill your lips, almost completely, leaving the center area clear. Use YB Travel Brush, starting at the corners, apply lipstick over the entire lip area. Apply YB Lip Shine to the center of your lips, using a clean lip brush - beautiful, "pouty", full lips.
